

OTHER THINGS WE THINK YOU SHOULD KNOW

1. BUDDY SYSTEM

All new drivers – (Novice – those who have never experienced racing radio control vehicles before) are assigned a to Senior Club Member who will be their buddy over the next year.

The Senior Club Member helps were possible, but please remember that this person will also be racing – maybe more than one class, they will need time to prepare their own vehicles for racing.

2. DRIVER TRAINING DAYS

The Club tries to hold on a six-6 month period, a Driver Training Day. This is dependent on the number of Novice (Junior/Senior) members joining during the year.

At this meeting which is held at 107 Quarry Road, Ryde, the vehicle of the new member/s is/are checked and set up to enable better racing and less mechanical problems.

New members are required to bring their Car, Radio, Charger and tools and any spare parts with them, as there is a possibility that a section of the vehicle may be dismantled.

This Buddy (Senior Club member) is **not responsible** for any breakages that may occur during the course of days racing, but he will assist in trying to prevent them where possible.

3. DRIVING STANDARDS

We hold ourselves proud of the standard of driving that our members have obtained. We **will not** permit deliberate hitting/damaging of cars, deliberate corner cutting or short coursing. It is possible to see that which is accidental and that which is deliberate. Laps will be deducted if you are caught driving dangerously or cheating.

4. KITS AVAILABLE

Whilst we do not and cannot recommend any one brand, the following are available and prices will vary from store to store.

Prices stated here are not actual prices, they are approximated prices. Stores may charge higher or lower than those shown below.

Further items you will need are:

a Battery charger (240 v power or from a car battery),
a stock motor (Johnson 540 Grey endbell cost \$20 +/-)
or a rebuildable stock motor (Roar R 24 degree markings cost \$58 +/-,
and two rechargable Sub C 6 cell Metal Hydrid batteries.

This will get you going for the first few races, provided nothing has been damaged or due to wear and tear.

Hope this has been of help and look forward to you joining us at our race meetings.
