

THIS IS A READY TO RUN KIT – YOU ONLY NEED TO BUY BATTERY PACKS AND BATTERIES FOR YOUR RADIO

**THIS IS ONLY A SUGGESTION.....Not a recommendation**

**Part Number: LOSA0285**

**Price: US\$269.99 - XXX-S Sport II RTR with JR XR2i radio and painted body**

- \* Race-proven, single-belt sealed drivetrain.
- \* Integrated 1-piece chassis accepts stick, side by side, or saddle battery packs.
- \* Molded suspension components feature interlocking construction.
- \* MIP CVD front and rear driveshafts.
- \* Easy access front and rear ball differentials.
- \* Traverse-mounted motor with lowered heatsink mount.
- \* Easy access spur gear and belt adjustment.
- \* Powerful Trinity 19-turn motor with replaceable brushes – Would recommend you change to a stock 27turn 24 degree motor
- \* Electronic speed control with reverse from Novak Racing.
- \* Treaded racing tires preglued on 1-piece chrome plated spoke rims.
- \* Foam bumper for added protection.
- \* Uses all genuine XXX-S replacement/hop-up parts.
- \* **XR2i digital radio system.**
- \* **Pre-painted Alfa body with decals.**

Requires 6-cell battery pack, charger, and 8 "AA" batteries.

**You will also need these additional items**
